4 Modules | 24 Webinars and 2 interactive Web-Based trainings with self-studies

Programme co-ordinator

Prof. Dr. Bertram Lohmüller, Steinbeis University Berlin

In co-operation with

Certified Course “Global Marketing & Sales“

Certified Course „Global Marketing & Sales“

How to do business in volatile markets? What are the organisational challenges to operate internationally? What kind of instruments can be used for developing new and existing markets and how it is possible to disrupt an existing market? How sustainable co-operations with business partners in Asia and in Europe can be built up? What kind of legal aspects have to be taken into account?

These and other questions for successful business development are discussed in the course. Based in the IMLead® concept a framework for market development will be provided.

On the basis of best practice cases, participants will receive specific and practical insights for planning, implementation and evaluation of international market entry.

Disruption: Relating to or noting a new product, service, or business model that radically changes an industry or business strategy, especially by creating a new market and disrupting an existing one.

Module 1: Business development and strategic marketing

Marketing circle and dimensions of marketing # Marketing trends, mistakes and principles of efficiency # Foreign business for technologies (Export-Marketing & Internationalization) # International technology management # Strategic marketing # Foreign marketing of technologies # Business development and business model generations based on the IMLead® concept

- Seminar/Webinars/WBTs: 18 hours

Target Group

The certification course is aimed at persons who are responsible for foreign trade in companies and organizations, as well as persons who are responsible for the positioning and marketing of products and services abroad as group managers or project managers.

Qualification aim

The participants will get acquainted with the core intercultural issues of business activity, the national characteristics of the perception of arguments, presentation materials as well as the behavior of the presenting person and they learn to grasp different types of presentation and the interdependence of goal and form of a presentation.

They deal with fundamental aspects of the internationalization of business law issues, deepen their knowledge of intellectual property protection and learn about the provisions of the Incoterms governing the supply of goods. They

Certified Course “Global Marketing & Sales“

will work out questions of global procurement, learn how a global supply chain can be represented and modelled, learn how a procurement analysis is carried out, and will be familiar with possibilities of supplier evaluation.

The participants get an overview of the most well-known theories and models of global marketing, learn about different strategies of market entry and link marketing activities with strategies of technology transfer. The participants acquire methodological competence to successfully place products and services in international markets.
